

**HELLE**  
**N O R W A Y**

**In the village of Holmedal,  
nestled between the Norwegian  
fjords and mountains, we create  
knives using our surroundings  
for use in your surroundings.**

Each knife is a result of knowledge  
and expertise passed down from  
generation to generation. Utilising  
our surroundings to the full, we  
know what is needed to create  
the perfect knife.

**At one with nature – just like  
our knives. This is Helle.**

## Folding knives

Helle folding knives offer traditional Scandinavian beauty based on the company tradition. Every Day Carry sizes for small or big adventures.

# Bleja

The Bleja has been in development for over 3-years, taking time to perfect a new locking mechanism with full liners for a strong and reliable utility folder.

All the standard features of a Helle fixed blade are tucked into this compact yet robust mid-sized utility knife for everyday carry. Featuring a drop point blade made of Helle’s renowned triple laminated stainless steel with a razor sharp Scandinavian grind and natural curly birch wood. The countered, slim handle yields positive control for carving.

Name:	Bleja	Art. No:	625
Design:	Helle-design		
Weight:	130 g	Year:	2017
Handle:	Curly birch		
Blade:	Triple laminated stainless steel	Thickness:	2,7 mm
Sheath:	Genuine leather	Weight:	38 g

# Kletten

Helle’s first everyday carry knife is a pocket-sized companion for simple, daily tasks.

Designed as an heirloom quality, gentleman’s knife with a slim, elegant and handcrafted finish. Curly birchwood scales add a personal pattern and color to each handle, reinforced with stainless steel liners and a stable lockback design. The forward finger guard and contoured shape provide a secure three-finger grip.

Name:	Kletten	Art. No:	662
Design:	Helle-design		
Weight:	84 g	Year:	2020
Handle:	Curly birch		
Blade:	Triple laminated stainless steel	Thickness:	2,7 mm

# Kletten

The new Kletten Kebony combines the mechanism, shape and grind of the regular Kletten, but packs it in a dark, smooth and handsome material instead.

# kebony

Kebony is a Norwegian innovation whereby wood is stabilized using waste biomass, making traditional northern woods denser and darker in the same process.

## Helle Classics

Our Heritage defines who we are. Knives have been critical tools in Scandinavia for thousands of years. Since 1932 we have been designing and making beautiful tools of natural material for use in nature. Inspired by the beauty that surrounds us.

# Alden

The Alden is named after the island Alden. Alden is still an important landmark for Fishermen coming home from the sea. The island is situated just of the coast from where the Helle factory is situated.

The Alden has a non-laminated stainless steel blade (12C27) and curly birch handle with stainless steel fittings towards the blade. It has a small and useful finger guard to fit in a pouch style sheath.

Name:	Alden	Art. No:	76
Design:	Gunnar Lothe		
Weight:	145 g	Year:	2009
Handle:	Curly birch and steel plates		
Blade:	Sandvik 12C27 stainless steel	Thickness:	3,0 mm
Sheath:	Genuine leather	Weight:	52 g

# Arv

Handcrafted using traditional methods that have been passed down for generations, the Arv Knife is worthy of inheritance.

A versatile lifelong companion, the Arv dispatches cutting tasks with ease. Featuring a drop point blade made of Helle’s renowned triple laminated stainless steel with a razor sharp Scandinavian grind and natural materials curly birch wood, antler and leather. The deeply contoured wooden handle provides positive control for detailed projects like carving. Each knife comes with a Nordic style sheath made of rich tanned leather.

Name:	Arv	Art. No:	14
Design:	Helle-design		
Weight:	88 g	Year:	2016
Handle:	Birch, staghorn and leather		
Blade:	Triple laminated stainless steel	Thickness:	2,6 mm
Sheath:	Genuine leather	Weight:	26 g

# Eggen

The Eggen is one of our most used all-round outdoor knives.

It is a stout hunting knife with a drop point blade of triple laminated stainless steel. The substantial curly birch handle is shaped to form a finger guard. It gives a solid feel in the hand and is comfortable for both medium and large hands.

Name:	Eggen	Art. No:	75
Design:	Gunnar Lothe		
Weight:	120 g	Year:	1998
Handle:	Curly birch		
Blade:	Triple laminated stainless steel	Thickness:	3,1 mm
Sheath:	Genuine leather	Weight:	50 g

# Fjellkniven

The Fjellkniven is a traditional all-purpose belt knife.

This highly polished laminated stainless steel blade is shaped for every day chores. The comfortable grip is shaped to keep your hands off the blade. It comes with the traditional pouch style sheath that does not require a keeper strap.

Name:	Fjellkniven	Art. No:	4
Design:	Helle-design		
Weight:	112 g	Year:	1994
Handle:	Curly birch		
Blade:	Triple laminated stainless steel	Thickness:	3,1 mm
Sheath:	Genuine leather	Weight:	50 g

# Folkekniven

The Folkekniven is a smaller utility knife for every day use.

It has a blade made of non-laminated stainless steel (Sandvik 12C27). With its curly birch handle and a straight forward leather sheath this is an every mans knife for every day chores.

Name:	Folkekniven	Art. No:	80
Design:	Helle-design		
Weight:	88 g	Year:	1998
Handle:	Curly birch		
Blade:	Sandvik 12C27 stainless steel	Thickness:	3,0 mm
Sheath:	Genuine leather	Weight:	44 g

# Fossekallen

Fossekallen is named after Norway’s ”national” bird.

The knife is well shaped for all around use. The blade is made of triple laminated stainless steel. The knife comes with a snap type leather sheath.

Name:	Fossekallen	Art. No:	49
Design:	Helle-design		
Weight:	88 g	Year:	2009
Handle:	Curly birch		
Blade:	Triple laminated stainless steel	Thickness:	2,6 mm
Sheath:	Genuine leather	Weight:	44 g

# Gaupe

Gaupe is the Norwegian word for Lynx. This all purpose outdoor knife sits comfortable in the hand with a slight finger guard.

It’s triple laminated stainless steel blade offers extraordinary sharpness. The knife sheath is a traditional Scandinavian design with the Lynx footprint as decoration.

Name:	Gaupe	Art. No:	310
Design:	Helle-design		
Weight:	122 g	Year:	2011
Handle:	Curly birch		
Blade:	Triple laminated stainless steel	Thickness:	3,1 mm
Sheath:	Genuine leather	Weight:	55 g

# Helle GT

Helle GT is a knife with a substantial guard. It is a big knife, but the lack of pommel and the use of aluminum for the guard keeps the weight down.

It is an excellent choice for those who like a fairly big knife with a guard. The blade is made of triple laminated stainless steel. The knife comes with a snap type leather sheath.

Name:	Helle GT	Art. No:	36
Design:	Gunnar Lothe		
Weight:	150 g	Year:	1997
Handle:	Curly birch and aluminium fingerstopper		
Blade:	Triple laminated stainless steel	Thickness:	3,2 mm
Sheath:	Genuine leather	Weight:	48 g

# Harding

The Harding is a traditional barrel handle hunting knife.

The beautiful, warm handle is made from curly birch and darkened oak separated by layers of leather. It has a full length tang. The blade is made of razor sharp triple laminated stainless steel. It comes with an embossed leather sheath with a handle butt retainer. A knife you will treasure.

Name:	Harding	Art. No:	99
Design:	Erling Opstad		
Weight:	104 g	Year:	1986
Handle:	Darkened oak, leather and curly birch		
Blade:	Triple laminated stainless steel	Thickness:	3,1 mm
Sheath:	Genuine leather	Weight:	56 g

# Jegermester

The Jegermester is intended for the butchering of big game.

The blade is thin made of 12C27 steel a steel that offers excellent edgeholding and sharpness. The knife comes with a pouch sheath. The handle is substantial with an attractive brass guard.

Name:	Jegermester	Art. No:	42
Design:	Helle-design		
Weight:	140 g	Year:	2002
Handle:	Curly birch		
Blade:	Sandvik 12C27 stainless steel	Thickness:	2,8 mm
Sheath:	Genuine leather	Weight:	48 g

# Lappland

This knife is the all-purpose camp knife of the Sami people; some may add it to the category of a baby machete, quite hefty in the hand.

The Sami people use them in their daily mobile life. This is a big knife with a non-laminated steel blade. The blade is fairly thin for effective slicing.

The handle is made of birch with brass fittings. The Lappland comes with a traditional Scandinavian style leather sheath where the knife sits deep and secure.

Name:	Lappland	Art. No:	70
Design:	Ragnar Bull		
Weight:	130 g	Year:	1979
Handle:	Birch and brass fittings		
Blade:	Sandvik 12C27 stainless steel	Thickness:	3,0 mm
Sheath:	Genuine leather	Weight:	108 g

# Nying

The Nying is a Helle classic, short and stubby. The handle is generously proportioned to give a good grip even when your hands are cold.

The attractive leather sheath has a distinctive cutout. It is fitted with a keeper strap, which engages a stud on the pommel, and a suspension thong. The Nying won an award for classic Nordic design.

Name:	Nying	Art. No:	55
Design:	Tor Indergaard		
Weight:	74 g	Year:	1977
Handle:	Curly birch		
Blade:	Triple laminated stainless steel	Thickness:	2,7 mm
Sheath:	Genuine leather	Weight:	40 g

# Sigmund

The Sigmund anniversary knife is a little bit more than the ordinary and it has quite a story to tell.

Designed by two generations of Helle men. Knife-blade designed by Sigmund Helle in the beginning of the 1930's and its handle by his son Torodd in 2012. Representing 80 years of tradition.

The Sigmund knife is a classic all-purpose knife. Its beautiful handle made out of stacked pieces of wood mixed with leather spacers gives the knife personality and the triple laminated stainless steel blade will offer extraordinary sharpness. The Sigmund knives comes with a genuine leather sheath out of the ordinary.

Name:	Sigmund	Art. No:	77
Design:	Helle-design		
Weight:	94 g	Year:	2012
Handle:	Beech, leather and darkened oak		
Blade:	Triple laminated stainless steel	Thickness:	3,0 mm
Sheath:	Genuine leather	Weight:	48 g

# Skog

Inspired by the evening by the campfire, the Skog is an outdoor companion for woodcarving.

The Skog is slightly more robust than typical carving knives to provide versatility for tasks around camp. A very small finger notch helps guide the grip without limiting the hold. This design delivers the best possible precision when holding the knife close to the blade for carving. The Skog features a handcrafted beechwood handle paired with a 3-inch blade made of Helle’s triple laminated steel. Each knife comes with a traditional sheath made of rich brown leather.

Name:	Skog	Art. No:	83
Design:	Helle-design		
Weight:	72 g	Year:	2020
Handle:	Beechwood		
Blade:	Triple laminated stainless steel	Thickness:	2,95 mm
Sheath:	Genuine leather	Weight:	44 g

# Viking

The Viking is a revision of a Helle classic that was produced as part of a fund-raiser for an around-the-world- cruise of a Viking longship. The knife is notable not only for it’s historical interest, but also as an excellent all around utility knife.

The blade is rather thick and made of laminated carbon steel. The black finish of the heat treatment is left on the sides for rustic look. The tang of the blade is peened over a diamond shaped washer. The handle is subtly shaped for comfort and control with a variety of grips. It comes with the traditional sheath that hangs from a thong.

Name:	Viking	Art. No:	96
Design:	Arne Emil Christensen		
Weight:	116 g	Year:	2009
Handle:	Curly birch		
Blade:	Tripple laminated carbon steel	Thickness:	3,7 mm
Sheath:	Genuine leather	Weight:	38 g

# Speider

All the standard features of a Helle fixed blade are tucked into this compact yet robust mid-sized utility knife for everyday carry.

Featuring a drop point blade made of Helle’s renowned triple laminated stainless steel with a razor sharp Scandinavian grind and natural curly birch wood. The countered, slim handle yields positive control for carving.

Name:	Speider	Art. No:	05
Design:	Tor Indergaard		
Weight:	70 g	Year:	1989
Handle:	Birch		
Blade:	Sandvik 12C27 stainless steel	Thickness:	2,6 mm
Sheath:	Genuine leather	Weight:	35 g

# Helle Semi and Full Tang

Helle knives are made to last. Our full tang knives add more steel to the traditional Scandinavian design, using new production methods while maintaining the Helle simplicity and beauty.

# Didi Galgalu

Didi Galgalu is a knife made for big adventurers. Designed in collaboration with the Voetspore team and worthy to take on any transcontinental adventure. Unique in both its design and the way it was developed.

The Didi Galgalu is one of the first Helle knife with a full tang construction. For 2021 the knife has been upgraded with a new handle made of Kebony.

The knife itself is fairly big with a shape of the handle that offers a sturdy and safe grip even if held close to the blade, much thanks to the double contoured handle. The handle is held in place by two sturdy brass rivets and a pipe rivet where you can tie a cord or lanyard of leather.

Name:	Didi Galgalu	Art. No:	610
Design:	Voetspore		
Weight:	193 g	Year:	2015
Handle:	Kebony		
Blade:	Sandvik 12C27 stainless steel	Thickness:	3,0 mm
Sheath:	Genuine leather	Weight:	57 g

# Temagami

A wilderness knife, updated design 2012.

The semi-full tang provides the extra strength associated with bushcraft knives. The tang is exposed on the top and pommel end, but is covered by the wood of the handle on the finger side. This protects the fingers from direct contact with the steel in cold weather. The drop point style blade is made of triple laminated stainless steel that provides excellent edge holding toughness and ease for sharpening. The handle has a bit of a finger guard to help keep your hand off the edge when slippery. The handle shape on the updated version of the Temagami allows a better control of the knife when holding in more positions. The Temagami comes with a Scandinavian style pouch sheath retaining the knife securely without the need for snaps or straps.

Name:	Temagami	Art. No:	300
Design:	Les Stroud		
Weight:	155 g	Year:	2011
Handle:	Curly birch		
Blade:	Triple laminated stainless steel	Thickness:	3,0 mm
Sheath:	Genuine leather	Weight:	60 g

# Temagami CA

The blade is made of triple laminated carbon steel that provides excellent edge holding toughness and ease for sharpening.

# Mândra

Designed in collaboration with Les Stroud, a.k.a. "Survivorman", the new Mândra neck knife was tested and refined on location in Romania.

The final touches during the development of Mândra, meaning "proud", were carried out in the raw, remote and overwhelmingly beautiful country of Romania –alongside the shooting of the latest Survivorman episodes. A triple laminated stainless steel blade and a handle of curly birch and vulcan fibre indicate the effort behind this brand new neck knife, accompanied with a genuine leather sheath.

Name:	Mândra	Art. No:	620
Design:	Les Stroud		
Weight:	70 g	Year:	2015
Handle:	Curly birch and vulcan fibre		
Blade:	Triple laminated stainless steel	Thickness:	2,6 mm
Sheath:	Genuine leather	Weight:	40 g

# Utvær

Named for the westernmost group of islands where Norway meets the North Sea.

The Utvær features a strong, full tang construction, ample curly birch handle and 4-inch blade of Sandvik 12C27 steel. The drop point Scandinavian ground blade, leather sheath, and curly birch wood handle characterize Helle's renowned strength, functionality and beauty.

Name:	Utvær	Art. No:	600
Design:	Jesper Voxnaes		
Weight:	160 g	Year:	2014
Handle:	Curly birch and vulcan fibre		
Blade:	Sandvik 12C27 stainless steel	Thickness:	3,0 mm
Sheath:	Genuine leather	Weight:	50 g

# Wabakimi

The third in a series of Helle knives designed together with Les Stroud. The Wabakimi combines Helle’s craft-ing traditions with Stroud’s mastery of survival and knifeskills.

The Wabakimi offer a medium size, well-balanced knife small enough for detailed woodworking, yet amply sized to make pre-cise butting and long carving sessions comfortable and efficient.

Name:	Wabakimi	Art. No:	630
Design:	Les Stroud		
Weight:	135 g	Year:	2018
Handle:	Curly birch		
Blade:	Triple laminated stainless steel	Thickness:	3,0 mm
Sheath:	Genuine leather	Weight:	38 g

## Fishing

With one side of the factory facing the mountains with its lakes and streams, and the other facing the fjord and ocean, fishing is always present.

# Fiskekniv

The Fiskekniv is a basic fishing knife Norwegian style.

It has a polished non-laminated stainless steel blade (Sandvik 12C27). The handle is smoothly sanded and has a mellow finish. It comes with a slotted leather sheath for safe carry.

Name:	Fiskekniv	Art. No:	62
Design:	Helle-design		
Weight:	70 g	Year:	1999
Handle:	Birch		
Blade:	Sandvik 12C27 stainless steel	Thickness:	1,4 mm
Sheath:	Genuine leather	Weight:	40 g

# Hellefisk

Hellefisk is a straight-forward fishing knife with a cork handle. The stainless blade of Sandvik 12C27 steel is thin and rather stiff.

The traditional sheath hangs from a thong. The knife weighs less than 2 ounces and it floats if it is lost overboard.

Name:	Hellefisk	Art. No:	120
Design:	Tor Indergaard		
Weight:	64 g	Year:	1992
Handle:	Cork		
Blade:	Sandvik 12C27 stainless steel	Thickness:	1,3 mm
Sheath:	Genuine leather	Weight:	40 g

# Steinbit

The Steinbit is a fillet knife with a thin flexible blade of non-laminated stainless steel (Sandvik 12C27).

The nicely curved wood handle feels good in the hand. It is supplied with a Nordic style sheath.

Name:	Steinbit	Art. No:	115
Design:	Espen Thorup		
Weight:	90 g	Year:	1990
Handle:	Curly birch		
Blade:	Sandvik 12C27 stainless steel	Thickness:	1,6 mm
Sheath:	Genuine leather	Weight:	44 g
