MAXPEDITION

PROVEN, TRUSTED, PREFERRED WORLDWIDE

Since 2003, the mission of MAXPEDITION is to build the highest quality gear from innovative in-house designs and to provide world-class customer service.

Featured Product: #PT1430 Falcon-III™ Backpack

① Box & X Reinforced

② Ergonomic

③ Teflon® Coated 1000 Denier Nylon Fabric

④ Genuine YKK® Zippers

⑤ Genuine Duraflex® Buckles

⑥ High Tensile Strength Composite Thread

⑦ Double Stitching

⑧ High Strength Nylon Webbing

⑨ Paracord Zipper Pulls

⑩ All Seams Taped & Finished

THE
MAXPEDITION®
STANDARD

To make the best bags and packs, Maxpedition® cuts no corners. Starting with large, unseamed panels of 1000 Denier Nylon, we meticulously reinforce each stress point with composite thread. No unnecessary seams or polyester parts are used.

Next we add military grade nylon webbing for straps, handles, and modular attachment points. Genuine Duraflex® buckles and hardware add strength and functionality. We use complete YKK® zippers and slides exclusively.

We finish our bags with a triple coat of polyurethane for water resistance and add a final coat of DuPont™ Teflon® Fabric Protector to repel the elements. Only the best components and designs are used.

Teflon®
DuPont fabric protector

Maxpedition® fabrics are enhanced with DuPont™ Teflon® Fabric Protector which provides durable, long lasting protection against oil and water-based stains, dust and dry soil. Teflon® is a registered trademark of DuPont used under license by Maxpedition®.

CCW Compartment

Many Maxpedition® bags are built to enable Concealed Carry. Loop-lined compartments accept our CCW holsters, which can be easily adjusted to fit your body and your training. When set up correctly and with proper practice, your fast, clean draw will give you the upper hand in any situation. Some CCW compartments can be secured with a padlock for added security and safety. **Please abide by all firearms safety rules and all applicable laws.**

New Products

Leading the Pack in 2015

Over the past 12 years, Maxpedition has grown and established itself as an industry leader. This is in no small part due to our innovation and fearless exploration of new ideas. Our prolific in-house Design Department creates products from the ground up, from concept to drawings to prototypes to testing, allowing us to eclipse many of our competitors who rework existing designs or are dependent on factory generated OEM designs. Even after all this time, Maxpedition endures as the gold standard to which others are compared.

SKU #PT1390

Incognito™ Laptop Backpack

Colors: B, K, DB, BR, W

Slim, rugged protection for your laptop computer

- Overall size: 12"(L) x 7"(W) x 18"(H)

Attachment Straps
[Pack of 4]**
Colors: B, G, K, F

SKU #9905

**5" TacTie®
Attachment Straps
[Pack of 4]**
Colors: B, G, K, F

Instructions for Installing TacTie® Attachment Straps

1. Be sure the TacTie Attachment Straps are properly installed on the pouch.
2. Pass the free ends through the first row of webbing on the pack/garment.
3. Pass the free end back through the second row of webbing on pouch.
4. Both TacTie straps are now passed through the second row and won't slip back.
5. Pass the free end back through another row of webbing on pack/garment.
6. Pass the free end through the locking buckle until the tail is fully engaged.
7. Pouch is now properly woven in an interlocking fashion.
8. Once properly attached, the pouch is secure as if it were part of the pack/garment.

Rollypoly® Series

Rollypoly® bags easily fold into a compact packet you can wear on your belt, pack in your luggage or attach to other Maxpedition® gear. All it takes is one clean pull to transform your compressed Rollypoly® into a completely functional dump pouch or backpack.

Knives & Tools

- Fixed Blade Knives
- Excelsa™ Framelock Folding Knife
- Ferox™ Folding Knife
- Acantha™ Tactical Pens
- Bottle PALS
- Knife Cases

Applying our design philosophy to the highest quality steel, aerospace aluminum and titanium alloys, we created these Knives and Tools. Destined for a long life of use, these products have been engineered for maximum function, durability and ergonomics. Handles employ smooth curves that reflect the human hand; grip strength comes from a good fit rather than an aggressive texture. Excess weight and extraneous features have been removed. Less is, often times, more.

Maxpedition® is proud of its strategic alliance with Thomas Coyne and his Survival Training School of California. CaliforniaSurvivalTraining.com

Top: Survival experts Manu Toigo and Thomas Coyne demonstrating primitive fire starting and cooking techniques.   Front Cover: Mirror signaling   Back Cover: Smoke signal deployment

Glossary of Terms

Anti-Theft Zipper System – Secured cinch cord interacts with paracord zipper-pulls to prevent unwanted opening and access (See #0431 Sitka™ Gearslinger®).

Bug Out Bag – Last minute survival bag, stocked with emergency essentials.

Button-Lock™ – Zipper-capture strap made from 0.75" nylon webbing folds and snaps over paracord zipper-pulls to help deter theft (See #0513 Falcon-II™ Backpack).

CCW Compartment – Easy to access compartment for storing Concealed Carry Weapon (CCW) designed with loop lining to engage with Maxpedition® holsters.

Cinch Cord – Strong paracord pulls to tighten fitted pockets and secure content, also loops through PALS webbing to hold light essentials.

Compression Straps – Takes the stress off of zippers.

D-Ring – Durable D-shaped hardware for attaching shoulder straps, keys and other light essentials.

Denier – Unit for measuring the thickness/weight of a thinly spun fiber, indicates durability and fineness of fiber filaments and yarns.

E.D.C. – Popular acronym, referring to Every Day Carry bags and accessories (See #9845 Jumbo E.D.C. Versipack®)

Elastic Organization – High tensile strength elastic nylon webbing, durably stitched into channels to hold and index various pieces of gear.

Ergonomically Designed – Scientifically designed to eliminate discomfort and reduce fatigue.

G.T.G. – Good To Go (See #9855 Fatboy G.T.G.™ Versipack®)

Hook-&-Loop – Durable fastening method, featuring opposing nylon surfaces that bind temporarily and tear apart when necessary. Used for adding a variety of quick-access pockets and accessories to your Maxpedition® bag.

Hydration Compartment – Integral rear compartment, stores 50oz - 100oz hydration reservoir (See #0512 Condor-II™ Backpack).

K.I.S.S. – Keep It Simple Stupid (See #9849 Jumbo K.I.S.S.™ Versipack®)

Keyper™ – Key retention system with alloy snap-hook.

L.E.O. – Law Enforcement Officer (See #9846 Jumbo L.E.O.™ Versipack®)

Modular – Components are standard so they are always compatible, like the PALS system we use for attaching to the the outside of a bag or the Hook-&-Loop system we use for attaching to the inside.

PALS Modular Webbing – High tensile strength nylon webbing used to attach smaller equipment onto load-bearing platforms, such as vests and backpacks.

Paracord – General-purpose utility cord made from lightweight nylon, used by both military personnel and civilians.

Quick Release Buckle – Sturdy molded Duraflex® buckle with push-in side access for immediate one-handed release, even while wearing gloves.

Retention Straps – Adjustable nylon straps that fasten to secure gear and prevent spillage.

Storm Collar – Interior water-resistant collar cinches at lid to help keep contents dry

S-Type – Mirrored design for left-side carry (See Versipack® and Gearslinger®)

Tactical Shoulder Sling – Removable ambidextrous shoulder strap, transitions from 1" nylon webbing to 2" at shoulder with removable 2" shoulder pad and multiple PALS attachment points.

TacTie® Attachment Straps – Secure 3" & 5" attachment straps that easily interlock with any PALS webbing surface for adding a variety of external pouches and panels to the exterior of your Maxpedition® bag.

Teflon® Fabric Protector – Fabric protector from DuPont® used on all Maxpedition® bags to provide long-lasting protection against oil and water-based stains, dust and dry soil. Fabrics are easier to care for without impacting color, feel or breathability.

Triple Polyurethane Coating – Used on all Maxpedition® bags to help keep exterior water-resistant.

Y-Compression Strap – Adjustable and removable Y shaped strap with 1" quick release center buckle, pulls tightly to compress bag contents.

YKK® Zippers – Renowned self-repairing industrial strength zippers designed to withstand harsh environments and extreme conditions.

Customer Service

For information and product inquiries or to order Maxpedition® gear contact customer service Monday through Friday at **310.768.0098** between the hours of 8:30AM and 5:00PM PST, or chat live at **www.Maxpedition.com.**

Questions can also be emailed to: **Info@Maxpedition.com**

Telephone: 310.768.0098
Fax: 310.515.5950
Email: Info@Maxpedition.com
Address: P.O. Box 5008 Palos Verdes, CA 90274 USA

Government Sales

GSA *Advantage!™*

Maxpedition is a United States federal government contractor and our product line is available on the GSA Schedule and on the GSA Advantage website. We welcome RFQs from military units and state / local agencies.

Please call us at **310.768.0098** or email **Gov@Maxpedition.com** for a same day price quote.

Dealer Inquiries

To find out about the Maxpedition Authorized Dealer Program, email **NewDealer@Maxpedition.com** with the following information:

1. Company Name
2. Contact
3. Phone Number
4. Physical address
5. Email address
6. Website

A dealer support specialist will contact you to initiate your application process.
